***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to Integrated circuit (IC), classified in class 379, subclass 280 and 290.
  - II. Claim 9, drawn to oscillator with Integrated Circuit.
  - III. Claim 10, drawn to apparatus with oscillator and integrated circuit, classified in class 455, subclass 130.
  
2. Inventions of Group I, Group II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has a separate utility. The Integrated circuit (IC) of Group I may be utilized in devices/apparatuses other than the oscillator of Group II or the apparatus of Group III. Obviously, an Integrated circuit may be utilized in any electronic device. Similarly the oscillator of Group II may be utilized in devices (e.g. communication devices) other than the apparatus of Group III. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2642

3. A telephone call was made to Mr. Eric M. Bram, Applicant's attorney, at 914-333-9635 on 12/12/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
